

## WALK 10. FLAX BOURTON VALLEY and MILL POND

Start as Walk 9 by going down path next to 133 Farleigh Rd onto the Greenway (cycle track) as far as the bridge at Station Rd FB. Turn left. Go over rail and stream bridge. Turn left at Footpath sign and walk across fields of the North Somerset Showground site. No defined path but aim for gaps in hedges. At top corner of the 4th field go through metal gate, turn left and follow track around cypress hedge of Gable Farm which is on your right. Turn left at restricted byway to a wooded dell and cross both streams by wooden bridges. Mill pond and weir on your left. S.O. to metal gate on your right (opposite fenced end of old railway siding). Go through gate and turn left and go ahead then diagonally to a gate, over the railway, across the Greenway to pick up the path you joined it. Head back to Backwell

About 3 1/2 miles.

Can be made shorter by taking the path by 133 Farleigh Rd, cross the fields to the Greenway, cross it and the rail bridge, through gate and cross fields to the metal gate ,left on the byway and onto the mill pond area.

I also attach the pages from Hamish's book which include a route to Tyntesfield - adds 2 miles.
